Times Have
Changed!

CTE: Then and Now

Then	Now
Vocational Education	Career and Technical Education
For “those” students	For ALL students
For a few “jobs”	For ALL “careers”
In lieu of academics	Aligns and supports academics
High school focused	High school and college partnerships
For “entry-level” skills	For careers that require some type of post-secondary education

How Are You Talking About CTE?

Passion and Purpose

Employability Skills

Work-Based Learning Opportunities

College-Ready AND Career-Ready

CTE Conversations at National Level

U.S Representative Virginia Foxx (NC) – Education Committee:

“We have to get away from the notion that the bachelor’s degree equates success. CTE students graduate at a rate of 94% - about 14% higher than their non-CTE peers.”

“In order for CTE students to thrive, we must do everything we can to change the way people think about CTE, shifting the narrative from a Plan B option to a Plan A option.”

College and Career Ready through CTE

When **APPLIED TECHNICAL LEARNING** is integrated with **RIGOROUS ACADEMICS**, students develop the **SKILLS NEEDED FOR SUCCESS.**

The technical, academic and employability skills that students gain in CTE programs, through CTE courses, work-based learning, career and technical student organizations and dual/concurrent enrollment, are essential for college and career success.

CTE programs prepare students for college and careers:¹

CTE students demonstrate the academic, technical and employability skills needed for postsecondary and workplace success:

80 percent of students taking a college prep academic curriculum with rigorous CTE meet college and career readiness goals, compared to only 63 percent of students taking the same academic core who did not experience rigorous CTE.²

Students attending CTE high schools demonstrate higher rates of on-time graduation and credit accumulation and a greater likelihood of successfully finishing a college prep math sequence.³

CTE students are significantly more likely to report developing problem-solving, project completion, research, work-related, communication, time management and critical-thinking skills during high school.⁴

Postsecondary CTE concentrators earn significantly more than those who majored in academic fields, particularly when employed in an industry related to their program of study.⁵

CTE Conversations at State Level

Michigan Career Pathway Alliance Recommendations:

- Recruit and retain CTE instructors
- Emphasis on professional trades
- Expand CTE statewide
- Ensure state-funded CTE programs lead to industry credentials
- Count rigorous CTE credentials as transferable college credits

CTE Advantages

Explore multiple post-secondary options - more than 88% of CTE students plan on attending a post-secondary institution

Career exploration – 6 in 10 students plan on pursuing a career related to their CTE experience

Academic and college success – 80% of high school students who took both CTE and college-prep courses met college/career readiness goals

Life skill development – problem-solving, project completion, research, critical thinking skills, communication, time management

Employers Rate Career Readiness Competencies in Terms of Essential Need
Weighted average based on a 5-point scale – 1=Not Essential; 2=Not Very Essential;
3=Somewhat Essential; 4=Essential; 5=Absolutely Essential

Competency	2016	2015
Critical Thinking/Problem Solving	4.7	4.7
Professionalism/Work Ethic	4.7	4.5
Teamwork	4.6	4.6
Oral/Written Communications	4.4	4.4
Information Technology Application	3.9	3.9
Leadership	3.9	3.9
Career Management	3.6	3.6

School Counselor: Then and Now

Then	Now
Mysterious job behind closed doors	Collaborates w/ staff, shares data, part of planning and implementation
Reactionary	Proactive
Scheduling, college apps, transcripts	Academic, Social-Emotional, College/Career
Touchy, feely conversations	Data-Driven
Only works with “troubled” students	Addresses the needs of ALL students
Support staff	Leader in the schools

How Are You Talking About the Role of School Counselors?

Systemic

**Compre-
hensive
Counseling
Services**

**Student-
Centered**

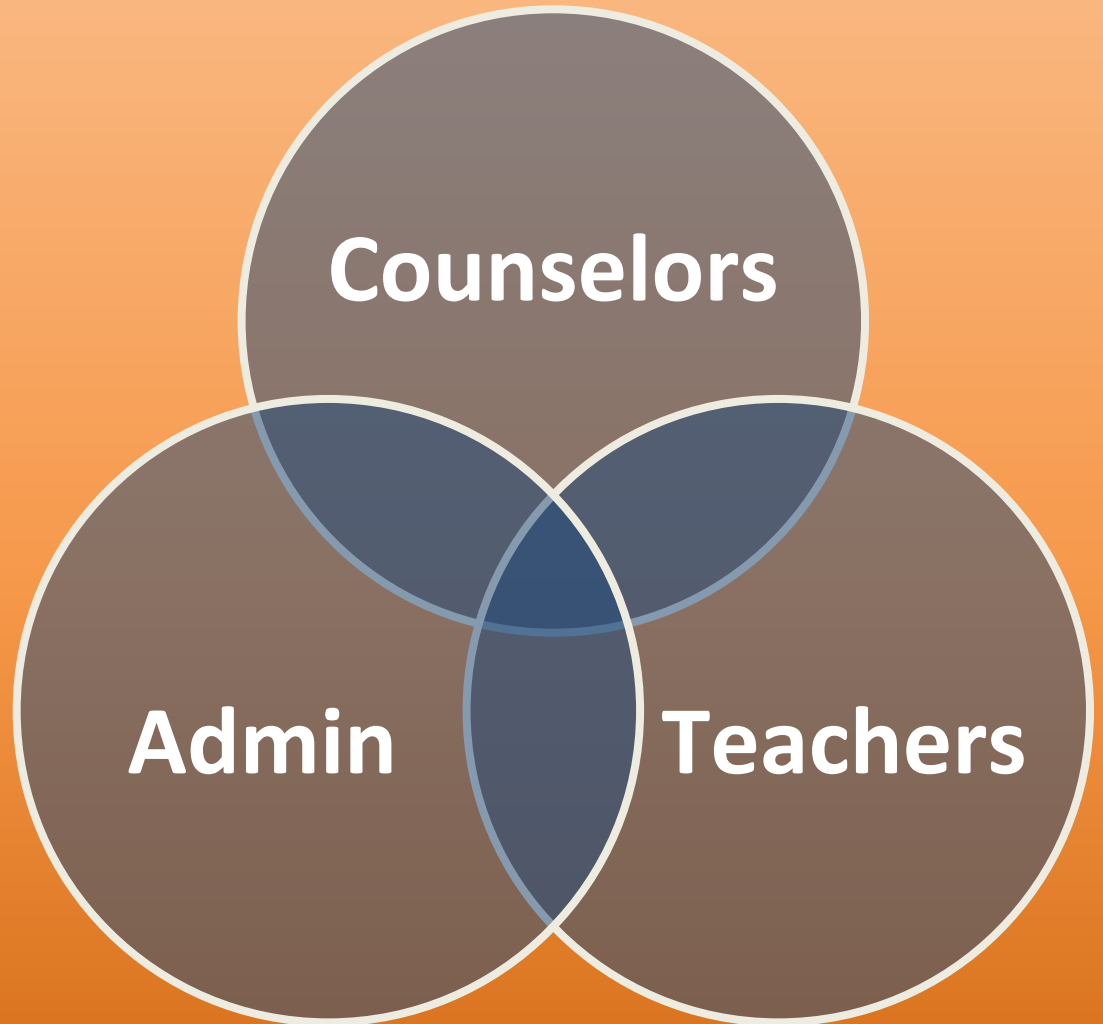

**Data-Dri
ven**

Common Needs From All Stakeholders

- Graduation and Grade-Level Advancement
- Student Academic Performance
- Attendance
- Behavior Referrals
- College and Career Readiness
- Provide a Safe and Welcoming Environment

How can we collaborate to meet the needs of ALL students?

Where Do You Start When . . .

**TIME
FOR
CHANGE**

How Do You Advocate for the Profession?

Data ~ Data ~ Data!

What data do you use to drive your practice?

Use All Types of Data to Meet the Needs of ALL Students!

Share Your Data!!!!

Share with:

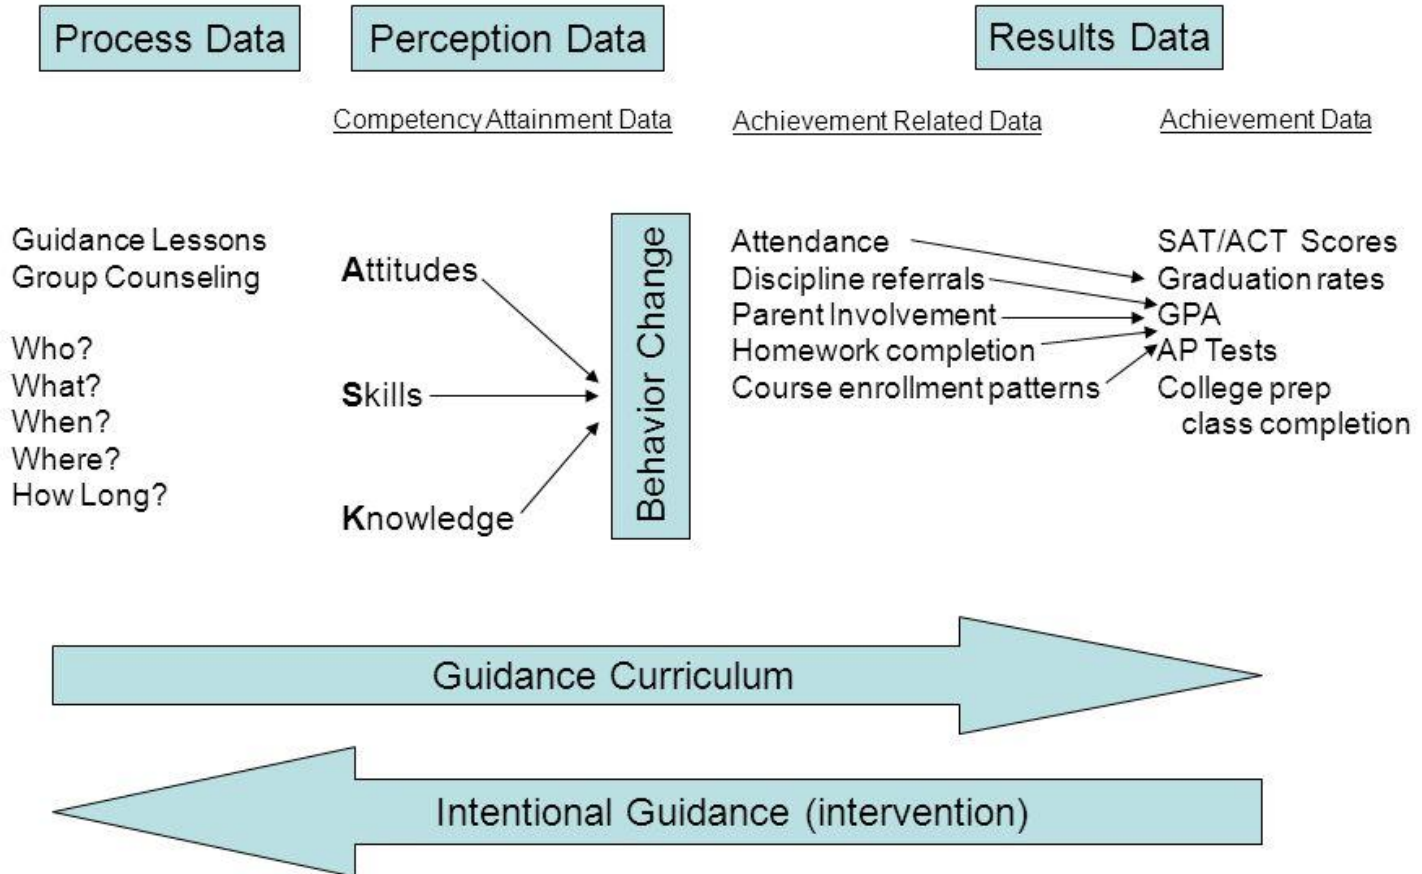

- Administrators
- Teachers
- Parents
- Students
- Advisory Committee

Your data will advocate for your job and the profession!

Continue to Evaluate Your Data

- Discipline referrals, attendance referrals, mid-year checks, 1-minute meetings, end of year surveys, stakeholder surveys, etc.
 - Do we need to reteach?
 - Do we need to form a group?
 - Do we need to implement some specific interventions?

Hatching Results Conceptual Diagram

Hatch, T. (2006)

Ask Yourself . . .

How can I impact the most amount of students as I can during the time that I am in my building?

How I am ensuring that I am meeting the needs of ALL students?

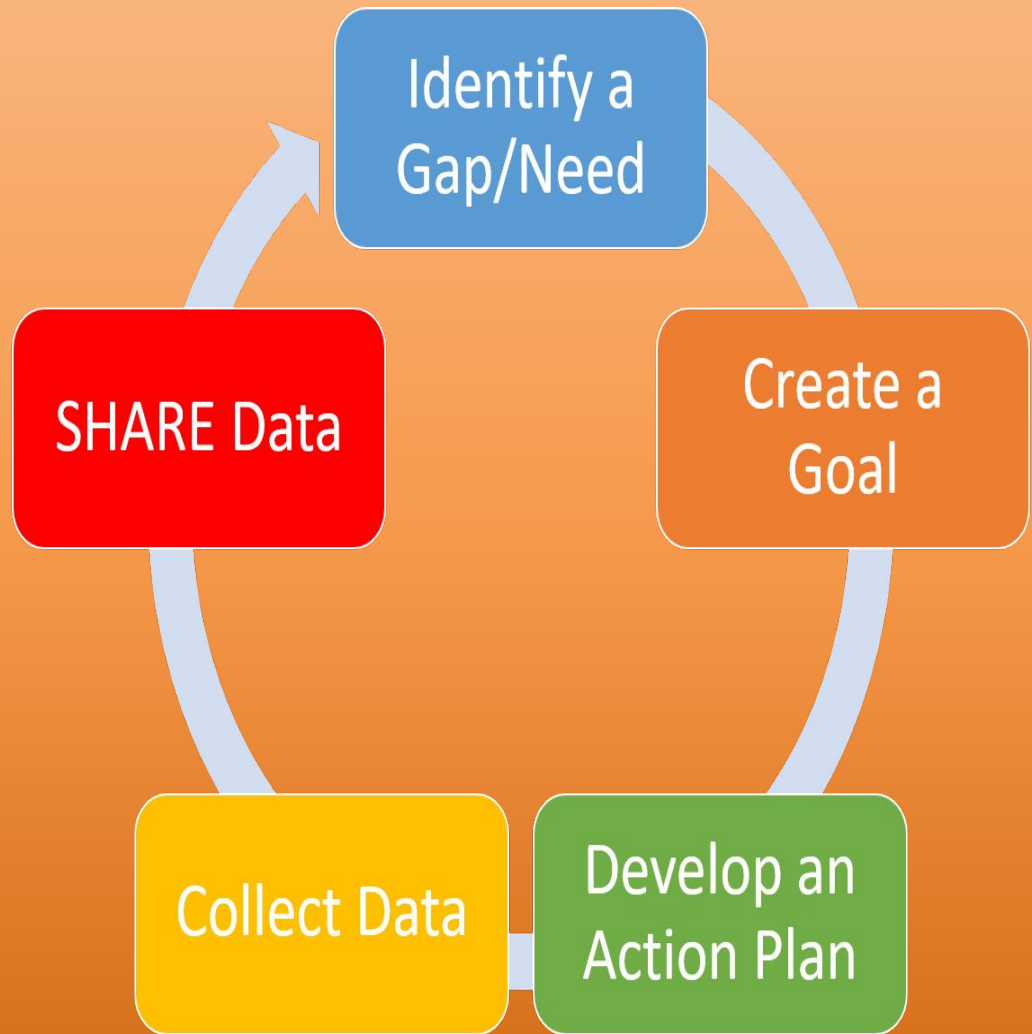

Don't just tell a different version of the same story.
Change The Story!

Data-Driven School Counseling

Cycle of Student-Centered Success

Examples of Comprehensive Counseling

- Counseling goal on the School Improvement Plan
- Counseling Dept.'s vision, mission and goals align with District's vision mission and goals
- Counselors on School Improvement Team – share data w/ staff, professional development
- Counseling curriculum supports academics, behaviors and attendance

Advocate for CTE and School Counseling!

*“Be just as strong of an
advocate for your profession, as
you are for your students!”*

- Trish Hatch

Reflection and Discussion

What is one thing you learned that you would like to try in your own work? What is your first step?

What are some challenges/obstacles that could you face when advocating for CTE and/or school counseling?

Thank You!

Terri Tchorzynski
